

Boston Feby 12th 1886

Dear Sir:

I personally knew Geo. H. Moulton -
38th Regt. Mass Vols - before the war and have known
him ever since. Before the war he was very strong
and active, but has never been the same since.
He has been employed in the music business more
or less until about 4 years ago, when he had to give
up all business on account of severe illness, and
go into the Country to get absolute quiet and rest,
hoping thereby to recover from a bad form of nervous
prostration, kidney and other troubles which his
physicians can better describe than I.
He has ^{not} recovered enough yet to be able to do much
only enough to try the experiment of selling picnics
for a home here, but not one of continuing any length
of time. I consider him incapacitated for doing
manual labor except of some light, temporary,
and unprofitable kind. One thing is certain,
that he must not undertake anything that will
tax his mind but very little. His case is a sad
one, and he surely deserves well of his Country,
and it has been a surprise to those who know

him that he has received, thus far
so little

What I here state is from my personal
knowledge of him and I have no other
interest in his case than that of a personal
friend

Yours Truly
Geo. L. Frost

To the Commissioner
of Pensions
Washington D.C.
