

RECOLLECTIONS BY MISS MARY H. HINCKLEY.

I well remember the Vose house at the village when I was a girl. I also remember when Mr. Safford placed the tablet on the so-called Suffolk Resolves House. My father Thomas - Hinckley came home one day from the village and told us that Mr. Safford had placed the tablet on the so-called Suffolk Resolves house and that he had expostulated with Mr. Edmund J. Baker and told him that he (Mr. Baker) knew that the statements made on the tablet were not correct and why did he allow Mr. Safford to maintain it there without raising any objections. He said that Mr. Baker replied, "If the damn fool wants to put it up there what harm does it do?"
